

Perfect Vision
No Glasses, No Contacts Ever

Set Me Free™

From under **\$40 a week**

Perfect Vision. No glasses, no contacts - ever. Be honest, you've probably been dreaming about setting yourself free from glasses and contact lenses for years. Most likely you've also heard of the benefits of Laser Eye surgery. You may also have enquired over the price of the procedure from a leading surgeon like Dr. Phillip McGeorge at Perth Laser Vision and thought, like many others, "hey, with what I'm spending on glasses and optical sunnies and contacts and solutions, that's going to pay for itself in a few years". But in the end the upfront cost meant putting the decision off until another day - which, with so many other pressures on finances these days, just never seemed to come. We'll we've come up with a solution to the upfront payment pain. An easy to manage weekly payment option from under

\$40 a week we call the "Set Me Free™" Payment Plan. And that's exactly what it will do - set you free today from the hassle and ongoing cost of glasses and contact lenses, with

a flexible easy to manage low weekly payment that you set yourself.

The "Set Me Free™" Payment Plan has been developed exclusively by Dr. Phil at Perth Laser Vision in conjunction with Mac Credit, Australia's leading specialist medical procedure finance provider - and applications and approvals are fast and hassle free (like our LASIK procedures).

Find out just how easy, and how flexible your term and payments can be now with our simple "Set Me Free™" Payment Plan at: www.setmefree.com.au You'll never look back - just forward to a brilliant, clear future from under \$40 a week.

Set Me Free™
PAYMENT PLAN

Discover more now at www.setmefree.com.au

The big problem with having to wear glasses and contact lenses is that you're caught with paying for life! First there's the cost. A nice pair of designer glasses can cost more than \$600 – multifocals even more? Then there are optical sunglasses (ka-ching!) and maybe reading glasses as well. And then contact lenses and all the solutions and eye drops – say another \$700 a year! And over the years there's bound to be an eye infection or injury and the trip to the doctor – and the medication (ka-ching ka-ching!). And with the average person replacing their glasses and contact lenses every 3 years (2 pairs + contacts) it can easily add up to over \$1500 a year!

*Set Me Free
From Paying
For Life™*

Then there's the lifestyle cost. What price do you put on the freedom to just dive in for a swim without worrying about losing your contacts? To be able to open your eyes and see the crystal clear wonders of where you're swimming.

To enjoy your favourite sport and leisure activities – even just reading a book or the TV guide - without finding your glasses. Plus all the other work hassles you know all too well. And with safe and permanent Perth Laser Vision LASIK Eye Surgery you only pay once in your life, so no matter whether you pay upfront or take advantage of our low monthly payment "Set Me Free™" Plan, you'll be ahead in just a few short years." Call and start saving today.

PERTH LASER VISION

People asked me if it hurt to
get the procedure done and I
was worried when I first went
in that it might hurt, but I felt
nothing, it was painless like
during the procedure and after,
like completely painless!

Kimba

94.5 breakfast radio announcer

“I’ve done
over 26,000
Laser Eye
procedures
and still get
great delight
in seeing my
patient open
their eyes
and see
perfectly;
it’s a joy!”

Dr Phillip McGeorge
MBBS FRACS FRANZCO

Excited about finally
getting rid of the glasses
and contact lenses.
I’m almost legally blind
and I seriously didn’t
imagine the day I was going
to be perfect 20/20 vision.

Woody

92.9 breakfast radio announcer

A man with short, light-colored hair, wearing a dark pinstriped suit, a white shirt, and a patterned tie, is smiling at the camera. He is positioned in front of a white wall. To his left is a large, black and silver piece of medical equipment, likely an eye examination machine, with various lenses and adjustment knobs. The machine has some text on it, including "00" and "LEA".
